

PROJECT UPDATES

BOILERS Environmental remediation and demolition of the boiler room occurred over the last several weeks. Installation of the new Weil-McLain boilers begins this week!

LIVING THE CALL
Sharing God's Gifts

WEIL-MCLAIN BOILER

NEW ORGAN

Due diligence is nearing completion for infrastructure adaptation costs to our balcony space:

- Multidisciplinary team of professionals including Structural Engineer, Organ Builder, Organ Consultant, Architect, Contractor, Subcontractors assembled
- Current Infrastructure cost estimates within original budget projections

New organ construction has begun at the Juget-Sinclair warehouse in Montreal, Canada:

- Large wooden pedal pipes (Bourdon Stop) nearing completion

Current Wicks organ listed for sale in the organ periodical "Diapason"

PARKING LOT

The Parking Lot Committee, members of the Buildings and Grounds Committee and parish staff selected a general contractor and subcontractors for the project. In May, the Buildings and Grounds Committee and Finance Council approved the contractor and projected cost of the project. The permitting process continues in the Cities of Milwaukee and Wauwatosa, and a start date for the project will be determined once the permits are approved.

ROOF & GUTTERS

Langer Roofing has completed the contracted work on the church roofing and gutters. They have now started work on replacement of the gym gutters.

SCHOOL UPDATES

The wireless infrastructure upgrades continue and will be completed this summer.
