

ORGAN UPDATE

The Christ King Organ Committee met on Sunday, January 22, 2017. The task of acquiring scope pricing from four organ companies is now complete and we have begun the difficult process of narrowing our choices to two organ companies. All the proposals submitted to the group were very exciting and would enhance our prayer and worship life for generations. Two of the companies sent a representative (the company owner) to worship with us for a weekend to see and hear our church space before making formal proposals. Many of the companies submitted more than one proposal and all were enthusiastic about building an organ for our beautiful church. The organ committee proposed the following action steps:

Organ Committee Members

Carol Bannen
Rev. Phillip Bogacki
Lynn Dziadulewicz
Neil Dziadulewicz
John Horky
Caron Kloser
John Krupka
Bill Lieven
Jim O'Brien
Maggie Pernice

1. Scott Riedel (our consultant), Bill Lieven and a number of committee members will do further research by playing and listening to two more examples of finalists work located in St. Louis and Chicago.
2. Generate a report which includes the two companies being considered, projected costs of project, rational for the project etc.
3. Communicate with all companies that submitted proposals to thank them for their proposals and let them know if they are still in consideration for the work.

Thanks to all who have shared their time and expertise to bring us to this stage of the project.
